

# TRANSPARENCY-ONE BLOCKCHAIN FOR THE SUPPLY CHAIN

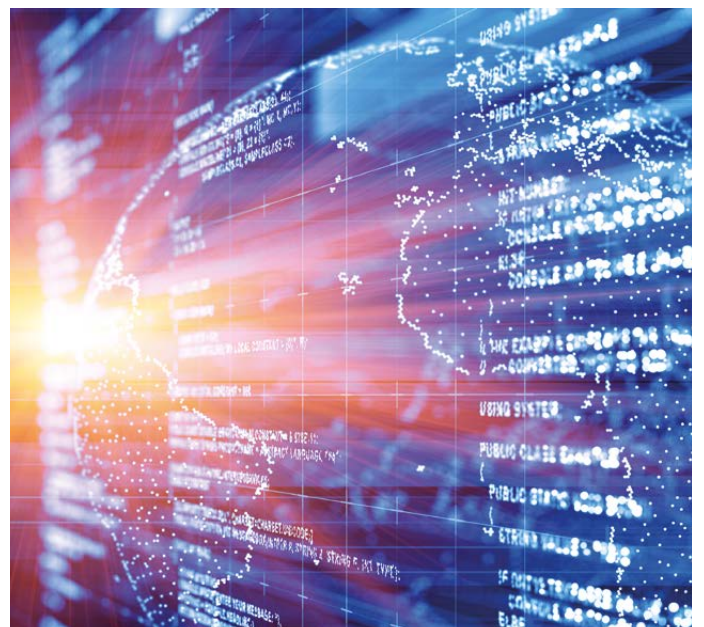

## ENSURE THE SECURITY OF YOUR SUPPLY CHAIN

Transparency-One has partnered with Microsoft to support blockchain Ethereum capabilities, for enhanced data protection.

Blockchain technology heightens the security of supply chain data stored in the Transparency-One platform by creating a permanent, immutable record of all supply chain interactions.

### BLOCKCHAIN TECHNOLOGY

- Build your end-to-end supply chain, then add your data in the blockchain
- Microsoft Azure's Blockchain Service supports infrastructure
- Ethereum protocol encrypts data into secure blocks
- SGS verifies all declared supply chain information
- Blockchain creates immutable records for heightened data security
- Private blockchain safeguards proprietary data

## About Transparency-One

Transparency-One enables companies to discover, analyze and monitor all suppliers, components and facilities in the entire supply chain. Transparency-One combines cutting-edge graph database technology, supply chain expertise, and global supplier onboarding services to help all supply chain stakeholders reduce business risk. The company has offices in Boston and Paris.
