

Digital Solution for Source to Store Supply Chain Transparency

Certification Management & Verification

Track industry certifications across all tiers in the supply chain and assure certification validity

- Target certifications based on supplier activity, products and markets
- Pre-built reporting dashboards to assess compliance with certifications
- Over 300 industry certifications in the Transparency-One solution
- Reminder notifications for expiring certifications
- Third party data verification through SGS

Why Transparency-One?

The Transparency-One solution offers two unique services for end-to-end certification management and verification:

- **Multi-tier approach** via a B-to-B social network platform. Collect certifications and other documents from suppliers, one tier at a time, down to the source.
- **Partnership with SGS** for global supplier onboarding support and certification verification. Complete supplier participation ensures comprehensive and accurate data.

Collect and verify certifications efficiently to ensure supply chain compliance at all levels.

ABOUT TRANSPARENCY-ONE

Transparency-One enables companies to discover, analyze and monitor all suppliers, components and facilities in the entire supply chain. Transparency-One combines cutting-edge graph database technology, supply chain expertise, and global supplier onboarding services to help all supply chain stakeholders reduce business risk. The company has offices in Boston and Paris.
