

Digital Solution for Source to Store Supply Chain Transparency

Product Quality Assurance

Track quality certifications and audit documents through the complete supply chain

- Set and communicate certification and documentation requirements for suppliers throughout your supply chain
- Pre-built reports to assess onboarding progress and compliance

Why Transparency-One?

The Transparency-One solution offers two unique services to help you deliver quality products to customers:

- **Multi-tier approach** via a B-to-B social network platform. Collect quality data and documentation from suppliers one tier at a time, down to the source.
- **Partnership with SGS** for global supplier onboarding support and data verification. Complete supplier participation ensures comprehensive and accurate data.

Assure product quality throughout the end-to-end supply chain with Transparency-One.

ABOUT TRANSPARENCY-ONE

Transparency-One enables companies to discover, analyze and monitor all suppliers, components and facilities in the entire supply chain. Transparency-One combines cutting-edge graph database technology, supply chain expertise, and global supplier onboarding services to help all supply chain stakeholders reduce business risk. The company has offices in Boston and Paris.
