Transparency-One

Digital Solution for Source to Store Supply Chain Transparency

Audit Tracking & Analytics

Track third party audits and consolidate all audit reporting to produce trend analytics and scorecarding

- Collect and store audit documentation in a single platform
- Pre-built reports assess supplier progress and compliance
- Receive reminders when certifications are about to expire

Why Transparency-One?

The Transparency-One solution offers two unique services to ensure effective audit tracking throughout the end-to-end supply chain:

- Multi-tier approach via a B-to-B social network platform. Collect audit data and documentation from your suppliers, one tier at a time, down to the source.

- Partnership with SGS for global supplier onboarding support and data verification. Complete supplier participation ensures you get the information you need.

Monitor and manage all audit data in a single platform and ensure end-to-end supply chain compliance.

ABOUT TRANSPARENCY-ONE

Transparency-One enables companies to discover, analyze and monitor all suppliers, components and facilities in the entire supply chain. Transparency-One combines cutting-edge graph database technology, supply chain expertise, and global supplier onboarding services to help all supply chain stakeholders reduce business risk. The company has offices in Boston and Paris.
